

Existing

Concept Photomontage

Option A - Straight Ramp

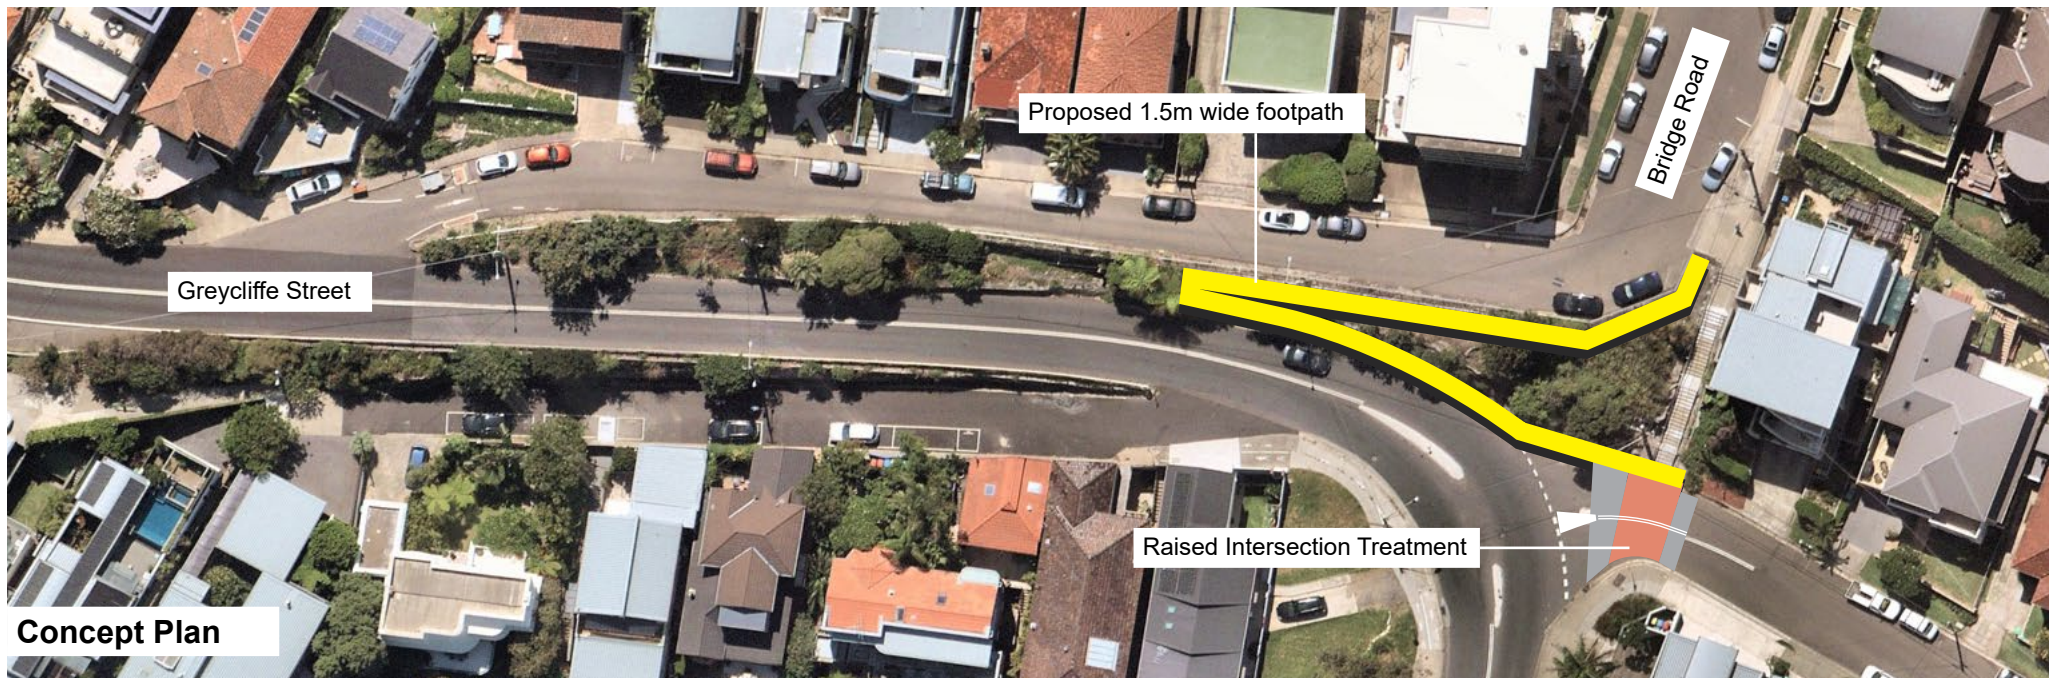

2m wide footpath

Ramp design utilises existing rock platform as much as possible to reduce impact and construction costs.

Note: Concept Photomontage is intended to give a visual impression of how the design may look within the existing streetscape. Position of structure, materials, colours and details may not be accurate.

Queenscliff Pedestrian Access Ramp

Concept Option A - Straight Ramp - Not to Scale - November 2020

Option B - Switchback Ramp

1.5m wide footpath

Note: Concept Photomontage is intended to give a visual impression of how the design may look within the existing streetscape. Position of structure, materials, colours and details may not be accurate.

Queenscliff Pedestrian Access Ramp

Concept Option B - Switchback Ramp - Not to Scale - November 2020
