

Project Information:

Council has been successful in obtaining funding through the *Federal Stimulus - School Infrastructure Program* to upgrade the existing unsealed path between Addiscombe Road and Campbell Parade.

This project will provide a safer and more accessible pedestrian and bicycle connection to Mackellar Girls Campus and surrounding areas whilst fulfilling environmental requirements within the site.

If budget allows, works may be extended into Stage 2.

This project is in line with Council's *Move - Northern Beaches Transport Strategy* and the *Northern Beaches Bike Plan*.

Path Upgrade

Addiscombe Road to Campbell Parade, Manly Vale
