

Based on feedback heard from the community during community engagement and further discussions with Keolis Downer and our Waste Services team, we have made changes to the concept plan that we first presented to you.

	Item	Update	Reason
1.	Pedestrian refuge in Addiscombe Road, at intersection with Kenneth Road.	Removed from plan. Council will install a No U TURN sign at this intersection. To prevent U-turns at the intersection.	Following conversations with our Waste Services team and local bus service operator, Keolis Downer, the proposed pedestrian refuge would have prevented vehicle turning movements for large trucks and buses.
2.	Removing two parking spaces and No Parking in Addiscombe Road.	Change to No Stopping. Council will install a solid yellow NO STOPPING line that will remove two parking spaces and the existing No Parking.	Vehicles parking in this location in Addiscombe Road prevent large trucks and bus from turning in to Addiscombe Road.
3.	One way traffic flow in Addiscombe Road.	We will be narrowing Addiscombe Road and creating a one way traffic flow for a short section of road from Fairway Reserve to Fairway Close.	This will allow the shared path to be constructed without removing vegetation.
4.	Existing bus zone located along boundary of Fairway Reserve.	Relocated bus stop west of the existing location to accommodate the raised pedestrian and cycle crossing. The bus zone will be located along the southern boundary of 5-7 Fairway Close.	To comply with Transport for NSW technical directions for No Stopping at pedestrian and cycle crossings.
5.	New Pedestrian refuge in Fairway Close, at the intersection with Addiscombe Road.	Included in plan Council will construct a pedestrian refuge at this location.	To improve safety for pedestrians and cyclists at this location
6.	Extension of shared path.	The shared path on the western side of Addiscombe Road has been extended to 6 Addiscombe Road. The shared path will then be constructed on the eastern side of the road and connect to the existing shared path.	To allow for improved connections and visibility for all road users in this location.
7.	Removing timber logs and constructing kerb and gutter	The existing timber logs will be removed from Addiscombe Road (opp 6 Addiscombe Road). New kerb and gutter will be provided here.	To allow for the parking area to be formalised.
