3.0 MATERIALITY / LOOK & FEEL

RAW NATURAL MATERIAL PALETTE

CONCRETE / PRECAST

A very durable and low maintenance material with inherent structural properties. The plank form provides texture to an otherwise rather smooth material.

CONCRETE

TIMBER

A warm and beautiful natural material. An alternative to alleviate maintenance issues would be a composite timber such as Innwood or Modwood.

TIMBER

NATURAL

All materials are inspired by the surrounding natural environment. Raw, hard wearing, and low maintenance. Local planting able to survive in the harsh beach environment.

NATURAL
