

MY PLACE AVALON

Completed Actions from Avalon Beach Place Plan as at 1 October 2023

My Place Avalon the Avalon Beach Place Plan was developed with our community to coordinate a consistent approach to planning for the area. The heart of the Avalon Place Plan process was to inspire and stimulate the community to work together to create a greater Avalon that people love and connect with. The Place Plan articulates a clear and compelling vision for Avalon Beach's urban landscape, identifying short-term improvements as well as long term priorities. Key achievements that have been delivered by key stakeholders including council and community are outlined below.

| | | |
|----------------------------------|-----------|--|
| Green and Clean | Action 1 | Replacement waste bins have been installed throughout the centre. |
| | Action 2 | 100 trees have been planted as part of the Centenary celebrations for Avalon and an additional 390 trees planted in various locations. |
